

Microwave-Absorbing Characteristics And Temperature Rise Behavior Of Cao-Psz In Microwave Filled	
Jinhui Peng	852
Size Effects on Static and Dynamics Properties of Supercooled Liquid Alumina Nanoparticles	
Nguyen Ngoc Linh, Vo Van Hoang	854
Adsorptive Characteristics Of Formaldehyde Onto Modified Activated Carbons Prepared By Microwave-Heating	
Tiancai Qian	856
Preparation And Characterization Of Zno-Ac Composite From Spent Catalyst Saturated With Zinc Acetate	
Wenwen Qu	858
The Study On Structure And Orientation Evolution Of UFG Copper Prepared By SD-AARB Method	
Qinnan Shi	860
The Diamond and Diamond Lovers	
Son Le Ngoc	862
The Texture And The Microstructure Development In Cold Mill Warm Rolled 85/15 -Brass	
Rong Wang	864
The Elytra of the cybister (Dytiscidae):Functional Morphology and Nano-Mechanical Properties	
Zhixian Yang, Zhendong Dai	866
Pyrolysis Behaviour And Kinetic Analysis Of Activated Carbon-Based Composites Containing Zinc Acetate.	
Zhengyong Zhang	868
Study On Characteristics Of Activated Carbons Prepared By Microwave-Heating And Its Adsorption Properties For Vocs	
Liexing Zhou	870
Investigations on the Properties α -PbO ₂ -Matrix Composite Material	
Buming Chen, Zhongcheng Guo, Xianwan Yang, Hui Huang	872

MECHANICS PAPERS

Qualitative Nanopowder Generation Kinetics	
Michael P. Anisimov	874
Prorities Computer Modeling of Carbon Nanotubes	
L.V. Bochkareva	876
Properties of BN Nanotubes with Isoelectronic Impurities	
Pavel N. Dyachkov	878
Computer Modeling Interaction of DNA with the Single-Walled Carbon Nanotubes Using	
Evgeny P. Dyachkov	880
Nanomaterial Generation from Supercritical Vapor-Gas Solutions	
Elena G. Fominykh, M. P. Anisimov	882
Computer Algorithm Design for Key Elements of the Nucleation Rate Surfases in Nanotechnology Applications	
Elena G. Fominykh	884
Light-Emitting Si Nanostructures Formed in Si Rich SiO ₂ by Pulsed Annealing	
G.A. Kachurina, S.G. Cherkovaa, R.A. Yankovb, D.V. Marina	886
Magnetic Nanoparticles Localized on Nanodiamond	
Oleg V. Popkov, G.Yu. Yurkov, Yu.A. Koksharov, A.S. Fionov	888
Alteration of Physico-Mechanical Properties of Sealing Composite Materials of New Generation at Influence of Excited Environments, Characteristic for Oil-and-Gas Branch	
Yu.S. Ryabets, N.V. Sorokina, V.G. Antonov	860

MATERIALS for ENERGY APPLICATIONS
