

# CONTENTS OF ICCE-16 PROCEEDINGS

The kaolinite rock in coal bearing stratum, China S.L. Ding, Q.F.Liu, Y.Z.Sun, B.H.Xu	1
Equivalent-material model analysis of the coal seam floor failure depth in Handan-Xingtai coal mines, China Y.B. Guan, H.M. LI, H.L. Song and X.N. Zhang	7
The comprehensive mechanical mining technology of thin coal-seam under the complex geological condition H. M. Yang	11
Experimental study on the steady-state methane gas diffusion in gob Y. C. Yang, Z. B. Cheng and B. Yin	16
Analysis of chaotic character of the earths surface subsidence caused by mining A.B. Zhang, X.X. Liu, X.P. Li and W.J. Di	20
The application of reciprocating mining technology B.S. Yang, M. Liang, C.D. Sun and C.G. Zhang	25
Optimize framework of canopy for hydraulic support based on the Random Ray Method H.T. Cui	30
Application and research of steel slag and coal-dust ash in composite foundation of rammed cast-in situ pile H.D. Ye, L. Qiao, L.J. Kuang and X.Z. An	34
Geological characteristics of filling structures in coal formations of Handan Coalfield X.Z. Liang, W. Hou	41
The simulation research of an adaptive fuzzy PID controller in heating systems control J.R. Gao, X. Meng, S.Y. Ma and Q. Meng	47
The smart battery monitor for safety lamp based on impedance track gas gauge M.X. He, W. Wang and J. Yan	51
Checking attendance system for coal mine based on face recognition L.Y. Lang and Y. Hong	55
Research of recognition technology for coal gangues based on image processing L.Y. Lang and X.F. Zhang	59
Combined hydraulic support of suspension roof timber Q.S. Li, G. Bian, H.T. Cui, D.C. Yin and R.Z. Dong	62
Vibration character of the multi-cords rub hoist W. Liao, J.L. Wang and X. Liu	66
Technology of increasing bulk density and granulation of methylcellulose J. H. Ren, W. Wang and L. Q. Niu	71
Study of optical fiber strain sensors used in coal mine architecture X. G. Wang, Z. X. Hao and L. Wen	76
The reliability assessment of coal mine scraper conveyer flight link X. L. Wei, J. H. Ren and X. Liu	79
